## The Primrose is Built for Service

**BOTH** the reasons why you buy a cream separator  
are met fully by the Primrose. The first is to get  
all the cream with the least work; the second, to buy a  
machine that you or your wife can easily keep in operating  
condition, and that will skim closely for years.

You know that there is nothing about a Primrose to get  
out of order. You know, too, that it has a splash oiling  
system that takes care of every bearing, and that it is a clean machine—no  
oil in the milk, and no milk in the oil.

But the Primrose has some other exclusive features you ought to know  
before you buy any separator. For instance, at any position, the handle  
takes hold the instant pressure is applied, and lets go the instant the pressure  
is taken off. The spindle stays in the separator, where it belongs. When  
you place the bowl on the spindle, it centers itself automatically without any  
pounding and without trying more than once—that saves the lower spindle  
bearing and prevents dangerous springing of the spindle itself.

No matter what separator question you bring up, you will find it fully  
answered by the Primrose. Come in and take a good look at it before you buy

Vincent this week that her son James,

army, with commission of captain. He  
reports for duty at Washington, D. C.,

fortable warmth of the building since  
the furnace has been installed.

fice in the building formerly occupied  
by Mrs. Bowles. He is prepared to  
write auto, tornado and fire insurance,  
and deal in real estate. A share of  
your patronage is solicited.

There seems to be some diversity of  
opinion among the medical profession  
as to whether or not strict quarantine  
should exist in cases of Spanish in-  
fluenza. Whichever should be adopted  
there are cases in our own little city  
where the disease can be traced direct-  
ly to coming in contact with the sick  
ones. We have had no deaths here as  
yet, but would it not be wise to pre-  
vent the spread of the disease by al-  
lowing no one to visit homes that are  
placarded?

While conservation is coming down

Columbus discovered America Oct.  
12, 1492. A later discovery of America  
was by the Germans July 18, 1918. It

will celebrate their discovery by de-  
claring a national holiday.

Joseph Palma, chief of the United  
States secret service at Detroit, warns  
the public to beware of federal reserve  
bank counterfeits. One and two dol-  
lar bills have been raised to 10 and 20  
dollar notes by pasting the figures of  
the larger notes over the smaller ones.  
It is easy to detect the change, however,  
as the one and two dollar bills bear the  
picture of Washington and Jefferson  
and the \$10 and \$20 notes—the genuine  
—carry engravings of Jackson and  
Cleveland.

others who are yet in arrears. We will  
feel very grateful to those who answer  
this call for cash at earliest conveni-

required to operate a newspaper as well  
as any other legitimate business.

If you know of any news items be  
kind enough to let the Expositor
